Termination of Service: To discontinue service, customer is responsible for notifying the utility. Failure to do so will result in the customer being responsible to continue paying the company's tariff rate until the company becomes aware that the customer has vacated the property.

Change of Use: The customer will not increase OR change his or her demand or use of service as stated in the customer's application without giving due notice of such increase. In the event of such increase, the customer will be required to pay the utilities regularly published rates for such increased service and demand from the date of connection and use of the same.

Whenever the customer desires to discontinue the use of water for any special purpose or through fixtures mentioned in the original application, the customer shall cause the fixture to be removed and the branch pipe or service supplying the same to be capped or plugged and shall notify the utility in writing before any reduction in charge will be made. Such a reduction in charge is contingent upon the provisions of the tariff.

The applicant specifically agrees to install and maintain at all times their plumbing system in compliance with the most current edition of the Uniform Plumbing Code having jurisdiction as it pertains to the prevention of water system contamination and prevention of pressure surges and thermal expansion in their water piping.

Further, the applicant agrees not to make a claim against Rainier View Water Company, Inc., or its agents or employees for damages and/or loss of production, sales or service, in case of water pressure variations, or the disruption of the water supply for water system repair, routine maintenance, power outages and other conditions normally expected in the operation.

Sprinkling and Irrigation: Water used for sprinkling and irrigation shall be paid for at the regular prescribed tariff rates for such service. The hours for such use shall be prescribed from time to time by Rainier View Water Company.

During peak use months (June-September), and at any such other times when demand may be high, Rainier View Water Company may prohibit or limit sprinkling and irrigation to preserve water for domestic use.

DISPUTE RESOLUTION: If you have a complaint or dispute with the company regarding utility service, please call 253-537-6634 or 1-888-490-3741 or write to Rainier View Water Company c/o Customer Service, P.O. Box 44427, Tacoma, WA 98448.

If your complaint is still unresolved, you may call the Washington Utilities and Transportation Commission at 1-800-562-6150. Their e-mail address is consumer@utc.wa.gov.

Tariff information is available at our office for review during normal office hours.
